In Favor of Granting the
Prayer—Mayor Returns
Vehicle Ordinance Un-
signed—Little Business of
Importance Monday Eve.

Absence of important legislation
before council was assigned as the reason
why the usual crowd of spectators
was not present. Not in months have
the seats provided for citizens been as
empty as they were last night. Council
caucussed for a short time before the
meeting opened and quickly
settled down to business when Presi-
dent Keller called the meeting to or-
der. The minutes or the last regular
meeting and the special meeting were
disposed of and the business on the
clerk's table taken up.

Mayor Bigbee submitted to council
his appointment of Warren T. Suter
as member of the civil service com-
mission for term of five years to suc-
ceed Walter C. Symons, whose term
expired. The appointment was con-
firmed.

Mayor Bigbee's monthly report of
collections in his office was submitted.
It showed the following collections:

| | |
|---------------------|--------|
| Fines | \$6.00 |
| Licenses | 165.00 |
| Other's collections | 45.00 |
| State taxes: | |
| Fines | \$5.00 |
| Mayor's fees | 30.00 |
| Officers' fees | 15.00 |

President Keller announced that he
had selected J. R. Ashbrook as chair-
man of the law committee to succeed
W. C. Seward, resigned.

The street committee recommended
the paving of Beuna Vista street and
that the plat of the Jefferson Place
addition be accepted. The law com-
mittee reported that the value of the
Jones lots in Granville street was suf-
ficient to stand the assessment which
the owner objected to.

Mayor Bigbee returned ordinance
No. 2456, regulating the driving of
automobiles and other vehicles with-
out his approval. He reported that a
previous ordinance practically covered
the same ground. Councilman Adams
held that some of the provisions were
all right and that it should be recon-
sidered and moved that the ordinance
be referred to the safety committee.

Clerk Woodward submitted a bill
from H. F. Hittner for \$200 for ser-
vices as electrical engineer for the
city in relation to the electric light
plant. Councilman Payne moved that
the bill be referred to the law commit-
tee and that Mr. Hittner be asked to
submit an itemized account of his ser-
vices.

The report of the treasurer of the
board of managers of the City Hospi-
tal was submitted by Mrs. A. J.
Baldwin. It was briefly as follows:

Licking County Prisoner's
Attack On the Indeterminate
Sentence Law Proves Futile

(Associated Press Telegram)
Columbus, Mar. 2.—Refusal to al-
low applications for writs of habeas
corpus made by two prisoners in the
Ohio penitentiary by the supreme
court today, foreshadowed, for the pre-
sent at least, the first legal attack
made to question the constitutionality
of the indeterminate sentence law.
The court holds that the convicts
through their attorneys had taken the
wrong legal step to get the consti-
tutional question before the
court, and thereby sustained the con-
stitution of former Attorney General
Timothy Hogan. The case should
have been brought up on error from a
lower court for a decision on the
validity of the law by the supreme
court, the decision holds.
Application for the writs of habeas
corpus was made in the names of
George Winslow, serving an indetermi-
nate sentence from Licking county
for burglary, and Harry Allen, a
Lucas county prisoner, serving an in-

TWO GARVERS ARE THE

IN OHIO LEGISLATION.

(Associated Press Telegram.)
Columbus, Mar. 2.—I am
not the Garver who is author of
the conservancy bill. This is
the substance of scores of let-
ters which Representative W. F.
Garver, of Millersburg, Holmes
county, Democrat, is sending
these days to citizens who write
to him to protest against or
praise the bill to amend the
Vonderheide act. They
mistake him for Senator A. R.
Garver, of Tippecanoe City,
Miami county, Republican.
"I received a letter today
from a number of my constitu-
ents in Holmesville, expressing
great indignation that I should
be father to a measure which
concerns my district so little,"
said Representative Garver.
"They told me if I did not like
the Vonderheide flood preven-
tion law, I might at least let it
alone. Yesterday I received a
letter from a Dayton man call-
ing me all sorts of names be-
cause he thought I was author
of the Garver bill."

Columbus, Mar. 2.—Arguments for
amendment of the Vonderheide con-
servancy law by passage of the Gar-
ver-Quinnik measure were presented
to Governor Willis and members of
the legislature today by a delegation
of 75 men from the upper Miami
valley. The Vonderheide act is per-
fect for Dayton's needs, but would
work injustice and heavy unneces-
sary debt on other residents of the Mi-
ami valley, speakers said.

Stanley Struble, former Hamilton
county commissioner, sounded a
warning that powerful self-perpetu-
ating organizations would arise with
conservancy districts made possible
by the Vonderheide law. These in-
time would develop in every river
valley of the state and burden the
residents with heavy taxation, he
predicted.

Other speakers placed the blame
for the 1913 devastating flood on
Dayton and other lower Miami val-
ley cities which allowed restriction of
river channels within their bound-
aries.

Governor Willis, after listening
for more than an hour to speeches,
told the delegation he is interested
in flood prevention legislation, but
that the first action must be taken

London, Mar. 2.—Operations of
the French and British fleets against
the Turkish fortifications on the Dar-
danelles, which during the past week
had taken the warships of the allies
some 15 miles through this well-de-
fended and narrow waterway are at
a standstill today on account of a
gale of wind accompanied by a heavy
mist which hinders the efficient
marksmanship of the naval gunners
necessary to reduce the second line
of forts concealed by the hills. This
respite is likely, to prove of benefit
to the Turks, but the allies realizing
the necessity of pushing any Oriental
offensive movement with energy, will
resume the attack as soon as possi-
ble.

From Athens comes a report that
Essad Pasha, of Albanian fame, the
Turkish soldier, who made his reputa-
tion as a strategist by the defense
of Janina in the Balkan war, has
been placed in command of the Tur-
kish forces at Gallipoli, flanking the
Straits.

Petrograd reports the completion
of Russian military operations
around Przasnysz and claims to have
thrown back to the frontier at this
point two German army corps. Pe-

tion of the offensive by the Russian
forces in Galicia.

Berlin officially announces the re-
pulse of Russian attacks north of
Lomza and northwest of Ostrolenka,

President Wilson refused to dis-
cuss the subject in detail, but said
that no nation has the right to
change the rules of warfare because
the methods of war have changed.
He indicated that the United States
will not change its previously an-
nounced position, but will continue
to make efforts to have the belliger-
ents respect American shipping of a
non-contraband character.
The president said it was not clear
in his own mind whether the new ac-

160 Miners Entombed;
Rescue Parties Working
To Penetrate to Victims

(Associated Press Telegram)
Hinton, W. Va., Mar. 2.—An explo-
sion occurred in the mine of the New
River and Pocahontas Consolidated
Coal Company three miles from
Huntdon, W. Va., at 8:30 o'clock
today. The mine connects with an-
other mine, each employing 80 men,
all of whom are believed to have
been in the pits when the explosion
occurred. Rescue parties were at
once organized, and the fans were
set going within 15 minutes after
the explosion, but at 10:30 o'clock

none of the miners had been brought
out.
Assistance was hurried to the mine
from nearby towns and a rescue car
of the bureau of mines was ordered
from Glenalum, W. Va., to the
scene.
The explosion occurred in Mine
No. 3, great volumes of smoke pour-
ing out of the openings. As it is di-
rectly connected with Mine No. 4, it
was feared that the men there had
also felt the force of the blast.
Thousands of excited people hurried
from nearby mining towns, and re-
scue parties were formed to penetrate
the workings in the hope that some
of the entombed men might be found
alive.

As the day wore on, additional
volunteers entered the mine, and
by noon two forces of twenty men
each were clearing away the fallen
coal and rock in the main entry of
Mine No. 3. Half a mile from the
opening they came across another
miner, badly hurt and unable to tell
anything about the explosion. Here
they encountered a mass of debris
and it was said that two or three
hours must elapse before it could be
removed and the workings beyond
penetrated.

After repeated attempts one rescue
party penetrated the main shaft at
Mine No. 3 for a distance of about
100 feet, and there found an uniden-
tified miner still living, but uncon-
scious. His legs had been broken,
and doctors said he probably would
die.

The mine where the explosion oc-
curred is a drift, high up on Quin-
timont mountain, and is in charge of
H. M. Bertollet, as general manager.

Attempt to Blow Up St. Patrick's Cathedral Was to Be

New York City to Kill and Loot in One Mad

One Accompanies Would Be Assassin to the Church and
As He Threw the Bomb Others Stamped Out the
Burning Fuse—Priest Was a Disguised Police Ser-

By Cicero of the Plots of the Treacherous Cataline.

(Associated Press Telegram)
New York, Mar. 2.—An attempt to blow up St. Patrick's cathedral
with a bomb today and the arrest of two men by detectives, who had
been informed for months of their activities, was followed by an an-
nouncement made at police headquarters that the arrests had balked an
anarchist plot to kill, with bombs, Andrew Carnegie, John D. Rockefeller,
Jr., and other wealthy men. Thereafter the anarchists according to the
police, were to inaugurate in New York a reign of terror comparable
only to the days of the French revolution.

It was part of the plot, the police assert, for gangs of men armed
with rifles and revolvers to appear simultaneously in various parts of the
city to shoot and to pillage; the biggest banks of New York City were to
be blown up and many wealthy men were to be slain.

The wreckage of the cathedral was to be the signal for the open-
ing of the elaborate campaign of murder and looting. The next move
according to the police, was to place the bombs in the homes of Andrew
Carnegie, the Rockefellers and Cornelius Vanderbilt. So far had the
plot progressed, toward this end, that the manufacture of the bombs,
the police say, had already been started.

With these and other capitalists disposed of, the anarchists planned,
according to the police, to invade the financial district and lay their
bombs in the city's biggest banks. General looting was to follow.

For months a central office detective had worked in the inner cir-
cle of the anarchists, according to the police story, and had kept the
detective bureau advised of all their plans. This detective, Frank Bal-
do, assisted in the manufacture of the bomb, with which the attempt
was made today to blow up the cathedral. The detective accompanied
the bomb thrower to the edifice and sat with him while he lighted the
bomb and hurled it at the altar.

Immediately the cathedral, in which 800 persons sat at worship, be-
came alive with detectives whose presence had been unsuspected by the
bomb carrier. Baldo sitting beside him, placed him under arrest, detec-
tives sitting in the pew behind, dashed into the aisle and stamped out the
sputtering fuse. The congregation hardly realized what had hap-
pened when it was all over and there was no panic.

At police headquarters, the alleged bomb thrower said he was
Frank Abarno, a lithographer, 24 years old. Soon after he was taken
to headquarters. Detectives acting upon information given them by Bal-
do, arrested Charles Carbone, an 18-year-old boy, and charged him with
complicity in the plot and with helping to make the bomb.

When Abarno entered the cathed-
ral door, his bomb in a package un-
der his coat and Baldo at his side he
walked on to a stage whose every
setting had been placed there by de-
tectives. Two scrub women on their
knees in the vestibule through which
he passed were in reality Central of-
fice detectives. The white wigged
priest who met them at the door and
took them to a seat down near the
front of the church and close to the
altar was a sergeant of police. Just
behind Abarno there entered the
church quite casually, two more de-
tectives who followed the pseudo
priest and took seats at his bidding
in the pew behind. It was these men
who saved the cathedral from dam-
age by beating out the fire in the
fuse.

Abarno realized the identity of his
companion a moment after he had
lighted from the glowing end of a
cigar the fuse of the bomb which he
carried under his coat. The missile
had barely left his hand to lie for a
moment on the carpet at the foot of
the altar, when Baldo pinioned Ab-
arno's arms behind him, told him
that he was under arrest and started
to leave the church. Abarno per-
mitted himself to be handcuffed to
his captor, without resistance and
walked meekly down the aisle with
other detectives surrounding him.

Baldo had lived with the alleged
anarchists since last December. He
had obtained Abarno's complete con-
fidence and had discussed with him
and with others, the police assert,
the details of the widespread plot.

From Baldo the police learned that
the anarchists' plans were to be de-
veloped in separate phases by groups
of two or three men working togeth-
er. Detectives were assigned to
watch these groups and the two men
from Central office were shadowing
Carbone when he was arrested.

According to Baldo, Abarno had
planned to wreck the cathedral a
week ago, late in the afternoon; but
had postponed execution of the idea,
partly at Baldo's suggestion. Today
when he left his room with Baldo,
half a dozen detectives, some of them
disguised as laborers and carrying
dinner pails trailed him to the
church.

Columbus, March 2.—That the clos-
ing of the Merchants and Miners bank
of Nelsonville by the state banking
department under the administration
of Emory W. Lattanner, as superin-
tendent, was for the purpose of ruin-
ing the credit of the Hocking Power
company of Nelsonville, so that it
could be purchased by a rival concern,
was intimated in testimony given to-
day before the Winans committee in-

Edward B. Young, president of the
Hocking Power company, on the wit-

company of Nelsonville, financed by
New York interests, tried to buy his
company but that he refused to sell.
Superintendent Lattanner announced
as a reason for closing the Nelsonville
bank was because of bad paper on

RETURNS FROM TRIP TO THE CANAL ZONE

Ex-sheriff and Mrs. Frank E. Slabaugh returned Monday from a two months delightful tour of the Panama Canal zone, Cuba and Florida. Both enjoyed the trip immensely, are looking the picture of health and Mr. Slabaugh takes pride in the fact that he found his sea legs entirely trustworthy at all times.

To an Advocate representative who met the former Licking county official last night he said:

"When we arrived at Colon on the Santa Marta we had no news for a week except the wireless bulletins which we received daily but of course they were necessarily meager. Going to the postoffice we found four Advocates and how we did devour the news. It was the first received from the states and every one who came in on the boat eagerly devoured every word in the newsy old Advocate. I tell you those papers looked good to us."

"We had a fine voyage all the way with very little rough weather and no storms. We spent much time seeing the great canal and cities of Colon and Panama. The entrance to the canal on each coast has splendid harbors, and the Atlantic harbor is said to have the finest docks in the world, and not yet completed. They are built of concrete and will accommodate a great number of vessels."

"The innumerable locks are very interesting, being equipped with all modern electrical machinery and all guarded by companies of soldiers day and night. The canal zone is entirely under control of our government and there is a great contrast between the possessions of our government and the state of Panama. The cities of Colon and Panama are attractive to persons of the states. Excepting the canal zone one sees a lower and entirely different civilization from our own, but in a few years these cities will be Americanized. One can see the American influence at work and before long it will spread over those cities."

"The universal language is Spanish which is sometimes annoying yet the influence of Americans is bringing the English into use. Americans soon learn to speak Spanish fluently while the native is slow to learn the English. We enjoyed our voyage immensely as I have said, with but a single exception, warm weather. The thermometer registered from 85 to 90 every day."

"Our visit to Havana was cut short by several cases of bubonic plague, or what was reported to be that terrible disease. It was rumored that all vessels and tourists on the island might be put under quarantine and as that was not a pleasant prospect we cut our visit short and steamed away to Miami, Florida. We visited several of the Florida cities and left Jacksonville Saturday night for Newark, the best town in the country."

Mr. Slabaugh for the present will attend to his farming interests and will give his attention to business which has accumulated during his absence.

CHESS MASTERS IN TOURNAMENT

(ASSOCIATED PRESS TELEGRAM)

New York, March 2.—A national chess masters tournament of 14 rounds with J. R. Capablanca, Cuban champion, and F. J. Marshall, United States champion, as the chief stars, has been arranged to take place here from April 19 to May 7.

Municipal Ownership To Be Debate Subject

The question of municipal ownership of the electric light plant will be the subject of a debate at the monthly meeting of the Methodist Brotherhood of the First M. E. church on Friday evening, March 12. The municipal ownership side will be represented by Messrs. J. A. Flory and Ernest Johnson, who will be opposed by Carl Norpell and Fred C. Evans. The men of the city are invited to attend this debate.

THE SICK

Mrs. A. McClatchy of Eddy street, was taken to the City Hospital Monday evening where she will be operated on today for appendicitis. Dr. Stimson will perform the operation.

Harvey J. Moore of Columbus, was in the city Monday, enroute from Mt. Vernon to Columbus. He has been ill for a week, suffering from throat trouble and is returning to Columbus to resume his work as an entertainer at the Virginia Hotel.

Mrs. E. A. Troby of East Main and Monroe streets was removed to the City Hospital Monday in Bazer's White ambulance. She will undergo an operation.

Mrs. J. L. Lane of Mound and Seventh streets is improving from injuries sustained when she fell at her home several weeks ago.

Mrs. George Lane is somewhat improved after an illness since early in December.

Mrs. Mary E. Davies, widow of the late Thomas J. Davies, was seized with an attack of spinal trouble while walking on West Main street with her granddaughter. She was removed to the Glebe furniture store where relief was given and she was taken to her home at 394 West Main street, where her physician, Dr. J. W. Barker, was awaiting. She rallied nicely in a short time and her many friends hope for a speedy recovery.

"Delinquent Child" defined. The chief business of charity organization is not almsgiving, but is the rehabilitation of families. The ultimate aim is the child of the future. The new social equation has been stated thus: "Save an adult, and you save one; save a child, and you save a whole multiplication table."

In order that there may be no doubt as to what child need saving, I give herewith the definition of a "delinquent child" according to the Ohio statutes (Juvenile Court):

Section 1464. "Delinquent child" defined. For the purpose of this chapter, the words "delinquent child" include any child under eighteen years of age who violates a law of this state or city, or a village ordinance, or who is incorrigible; or who knowingly associates with thieves, vicious or immoral persons; or who is growing up in crime; or who knowingly visits or enters a house of ill repute; or who knowingly visits a policy shop or place where any gambling device is, or shall be operated; or who patronizes or visits a saloon or dram shop where intoxicating liquors are sold; or who patronizes or visits a public pool or billiard room or bucket shop; or who wanders about the street in the night time; or who wanders about railroad yards or tracks, or jumps or catches on a moving train, traction or street car, or enters a car or engine without lawful authority; or who uses vile, obscene, vulgar, or profane or indecent language; or who is guilty of immoral conduct;

Section 1465. "Delinquent child" defined. For the purpose of this chapter, the words "delinquent child" include any child under eighteen years of age who violates a law of this state or city, or a village ordinance, or who is incorrigible; or who knowingly associates with thieves, vicious or immoral persons; or who is growing up in crime; or who knowingly visits or enters a house of ill repute; or who knowingly visits a policy shop or place where any gambling device is, or shall be operated; or who patronizes or visits a saloon or dram shop where intoxicating liquors are sold; or who patronizes or visits a public pool or billiard room or bucket shop; or who wanders about the street in the night time; or who wanders about railroad yards or tracks, or jumps or catches on a moving train, traction or street car, or enters a car or engine without lawful authority; or who uses vile, obscene, vulgar, or profane or indecent language; or who is guilty of immoral conduct;

Section 1466. "Delinquent child" defined. For the purpose of this chapter, the words "delinquent child" include any child under eighteen years of age who violates a law of this state or city, or a village ordinance, or who is incorrigible; or who knowingly associates with thieves, vicious or immoral persons; or who is growing up in crime; or who knowingly visits or enters a house of ill repute; or who knowingly visits a policy shop or place where any gambling device is, or shall be operated; or who patronizes or visits a saloon or dram shop where intoxicating liquors are sold; or who patronizes or visits a public pool or billiard room or bucket shop; or who wanders about the street in the night time; or who wanders about railroad yards or tracks, or jumps or catches on a moving train, traction or street car, or enters a car or engine without lawful authority; or who uses vile, obscene, vulgar, or profane or indecent language; or who is guilty of immoral conduct;

Section 1467. "Delinquent child" defined. For the purpose of this chapter, the words "delinquent child" include any child under eighteen years of age who violates a law of this state or city, or a village ordinance, or who is incorrigible; or who knowingly associates with thieves, vicious or immoral persons; or who is growing up in crime; or who knowingly visits or enters a house of ill repute; or who knowingly visits a policy shop or place where any gambling device is, or shall be operated; or who patronizes or visits a saloon or dram shop where intoxicating liquors are sold; or who patronizes or visits a public pool or billiard room or bucket shop; or who wanders about the street in the night time; or who wanders about railroad yards or tracks, or jumps or catches on a moving train, traction or street car, or enters a car or engine without lawful authority; or who uses vile, obscene, vulgar, or profane or indecent language; or who is guilty of immoral conduct;

Section 1468. "Delinquent child" defined. For the purpose of this chapter, the words "delinquent child" include any child under eighteen years of age who violates a law of this state or city, or a village ordinance, or who is incorrigible; or who knowingly associates with thieves, vicious or immoral persons; or who is growing up in crime; or who knowingly visits or enters a house of ill repute; or who knowingly visits a policy shop or place where any gambling device is, or shall be operated; or who patronizes or visits a saloon or dram shop where intoxicating liquors are sold; or who patronizes or visits a public pool or billiard room or bucket shop; or who wanders about the street in the night time; or who wanders about railroad yards or tracks, or jumps or catches on a moving train, traction or street car, or enters a car or engine without lawful authority; or who uses vile, obscene, vulgar, or profane or indecent language; or who is guilty of immoral conduct;

BUY MADE IN U. S. A. PRODUCTS

Our industries may be terribly upset by the war, but as long as baseball season will open shortly the country is safe.

Years ago you could make a boy happy by starting him out in the spring with a wheelbarrow, but now he has a motorcycle.

The only thing that prevents many people from visiting the Panama-Pacific exposition is the selfish refusal of their friends to lend them the money.

After reading that people should have work done at once so as to give people employment, some generous men decide to go out and get a five cent. shine.

If the reading circle gets drowsy just bring in one of the new magazines with the spring fashions, and see how popular the study of literature really is.

An exchange says that dances, cards, and charities are the principal Lenten diversions. Probably some are willing to make still greater sacrifices by giving up the charities.

The business men of this country feel that people of South America should be so anxious to buy our goods that they will proceed to acquire the English language to find out about them.

Unemployed.

According to Chicago's superintendent of public welfare, farmers are offering transportation and in some cases board and washing, but a great many of the unemployed refuse to go to the farms. The previous week 600 men visited the office and demanded work of any kind, yet 100 jobs on farms are not taken up.

The reason commonly assigned why men are not willing to move out of large cities and take farm jobs, is that they dislike to give up the stir and life of the cities. The dark and still country, without picture shows and electric lights, seems lonely and homesome.

But perhaps many of these men are too indolent for the hard labor of the farms, or are physically too weak, or feel that they are.

A man who had always lived a rather idle life once remarked that he had rather suffer pain than work with his hands. This man had inherited a little farm whose fields were weedy, its buildings lacked shingling and painting, fences were down. He was fond of reading poetry and philosophy, but there were rumors that his family did not get enough to eat.

The hard lot of such men is not generally regarded as being as pathetic as they seem to think.

If a man is practically sure of regular employment as soon as general business starts up, it might be foolish to move out on a farm. Yet a few weeks of out-door labor this

Isadora Has Left Us.

Isadora Duncan has left us—packed up her baggage and her fortune and departed. She says the people of this country do not appreciate art. So she has gone to Europe, to buy a palace, and to live the rest of her days where people understand the artistic. She made her money in this country. It is true, and danced herself into possession of a snug sum, but still she has not been appreciated, she thinks.—Dayton News.

Ohio Legislative Notes

Columbus, O., Mar. 2.—These administration fellows of Ohio are decidedly thin-skinned, and they are growing sore under the continued deserved lashings of the hated secular press of a free and untrammelled state. This talk that has been going the rounds about how worthless is the legislature of this year A. D. 1915 and how little it has accomplished in seven full working weeks at a cost of from three to four thousand dollars a day, hurts. It hurts the more because it is true, all true. It hurts because the individual members are all human, or mostly so, and they have feelings just like folks, even if the Republican management has caused them to do things that they would indicate otherwise.

Now does the administration like all the noise that has reverberated over the hills and down the valleys over such an innocent little expenditure of the people's money as that seventeen hundred dollars for "supplies" including the carnations, gold pencils and silver pocket-knives and the like. And so at the beginning of this eighth week, this said legislature is according to the decree of its intransigent, Governor Frank B. Willis, supposed to get busy, stop the foul slander, and hurl the gauntlet straight into the teeth of its critics, and verily cram that gauntlet down the common throat.

Just by way of a starter the honest governor is going to show the people upstate "by gawd"—his favorite byword, that there is something doing for all. Hitherto it has been doing for Ada and for Delaware. And so he has let it be known that he has taken his bulky form from the lid of the barrel in which has hitherto reposed by his orders the couple or so of bills that were designed to amend and repeal the provisions of the Vanderheide flood protection law. It matters not that he has set upon the self-same lid long enough to snag his breeches as he is being ejected from his seat by the turmoil which has been created beneath the lid. "He comes up smiling" and bravely says "Justice be done. Let

the necessity of such methods is a disgrace to the interstate commerce commission that compels it. There is no man in any line of industry in America whose business would not at once be benefited if the railroads were allowed to adjust their rates on an equitable basis. Prosperous railroads mean a prosperous people. There is no business that so divides its prosperity with its patrons as does the railroad.

The railroad is the world's biggest customer for iron, steel, copper, glass and wood.—March Philistine.

Copper and War.
Copper sold in Germany not long ago for \$776 a ton; the price in England at the same time was \$291. For military purposes it is indispensable. In combination with zinc or tin it enters into the shell of every cartridge for rifle or revolver or pistol, and into the jacket of every bullet; it is the chief material in every primer, and is essential to the manufacture of ammunition for much of the ordnance. Copper wire is used for field telephones, for winding dynamos, and for many other electrical purposes. Before the war Germany consumed annually 250,000 tons, of which it produced only a tenth.—Youth's Companion.

Go-To-Church Sunday.
Columbus is to have its second Go-to-Church Sunday. The first one was in February of last year, and was an experiment. It turned out to be a pleasant one. Ministers, church members and non-church members were much pleased with it, and the Dispatch received many requests that Go-to-Church Sunday be made an annual event for Columbus.—Columbus Dispatch.

Constantinople's Fourth Fall.
Constantinople may be the first decisive prize for the allies. The ancient city on Europe's stormy frontier has been hammered, assaulted and besieged many times, but taken only thrice in all its history. And it has been seriously threatened but once since the Turks wrested it from the descendants of the Caesars nearly five centuries ago.—Providence Journal.

Did that Hamilton county bluff for adjournment accomplish anything? It did. In the first place there has been much displeasure manifested at the attempt to ignore the wets in the assembly, and there has been dissatisfaction at the delay in keeping promises that were made before the election in a certain well known section of the state.

In the second place there were threatened certain regulatory features under guise of decentralization of the liquor license law which nobody wanted and which he it known nobody was going to get.

Thirdly there was honest reason for adjournment of a legislature which without leader and without program was getting nowhere.

But all is again serene. The resolution of Senator Pink is not to be urged for a vote, and Representative Yeatman still carries his in his pocket. This is the situation since Peter Durr and Rud Hynicka had a conference with the governor. Now the guess in state circles is whether Durr or his Excellency promised to be a "good Indian." At any rate the story now goes that there is to be nothing doing in the McDermott decentralizing line, which showed a few samples of undesired legislation, and immediately upon the heels of the announcement comes the story that Durr's pet plan of licenses to be issued by jury or master commissioner is to be given a whirl.

Who said Willis was not to have anything to do with legislation? Nobody but himself, and nobody at all believes it.

In one regard at least the administration of Governor Willis is without parallel in the history of the state. He has been in office less than two months and already it is whispered in administration circles that he will make no attempt to succeed himself. He has sat himself in the hornet's nest, and his generous overtures are being freely stung. In plain United States, he finds himself questioned, his statements challenged, and his actions discredited at the very beginning of his term of office.

Billy Sunday who has promised to go to Boston for a campaign, is reminded by The Globe of Mr. Beecher's witticism that "being born in Boston obviates the necessity of being born again." But there is a vast course of people in Boston, now who were born in Italy.—Columbus Dispatch.

Use Themselves Little.

Doctors are notoriously fond of their own most disobedient patients. Usually they eat and sleep irregularly, they are out in all kinds of weather, and they hesitate at no danger of contagion or infection. Out of the 2208 physicians who died in the United States last year, 214 were more than 80 years old, and twenty-one of them more than 90. The average age was about 61 years. Probably doctors dose themselves less than other people do.—Youth's Companion.

Don't stay stuffed-up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

Society

On Friday evening Mrs. S. M. Hamilton, superintendent of Eden Bible school entertained at her hospitable home near Purity, O., with a reception in honor of the young people who came into the church during the revival meeting recently held. After greetings were exchanged by the fifty present, the young people were asked to stand, and were each presented with a white carnation, an emblem of purity. W. F. Nuzum, of Columbus, pastor of the church, then requested that all gather about the piano and join in the singing of that touching hymn, "Blest Be the Tie," after which he followed with prayer and reading of the 15th chapter of St. John's Gospel. Mr. Nuzum then gave a friendly address, portraying the benefits and enjoyments found in living the Christian life. Mr. O. A. Hamilton, the young people's Bible school teacher, followed Mr. Nuzum's address with some good, sound advice interspersed by illustrations of a laughable nature. After singing one verse of the revival hymn, "The Touch of His Hand on Mine," the rest of the evening was devoted to an observation contest, and instrumental music. At a late hour each one present was given a name taken from the Bible, and much fun was had as they tried to find the members of their families, that they might gather in a family circle to partake of the refreshments that were served. A similar reception was held on Thursday evening at the home of Mr. and Mrs. Perry Vanwinkle, honoring the older members, who had joined the church during the revival. There were thirty-eight accessions to Eden church.

Miss Creta Priest delightfully entertained at her home in West Locust street Sunday evening with a six o'clock dinner.

The girls of the Twentieth Century club met at the home of Miss Fulton Eade in Hudson avenue on Saturday afternoon. The next meeting will be held at the home of Miss Anna Haines in Central avenue.

At her home in South Sixth street, Miss Mary Miller entertained with a dinner on Saturday evening, honoring Miss Louise Morton of Zanesville, who was the guest of friends here over Sunday. Covers were laid for seven guests.

A meeting of the Investigators' club was held March first, at the home of Mrs. A. B. Young. The following program was carried out:

Quotations—Spring.
An Hour with Humorous Magazines—Mrs. Postle, Mrs. McDonald.
Reading—Mrs. Sachs.
The club adjourned to meet March eighth, with Mrs. A. A. Church.

The regular meeting of the Monday Talks was held at the Y. M. C. A. on the club day, and a business hour was held and the following officers were elected:

Quaint Old Harvard Rules.

Quaint rules and customs regulated class days at Harvard university in the seventeenth century, for in 1661 the overseers ordered that the president "from time to time commend it to the parents and guardians of the students that commence that they provide not above one gallon of wine for a student, judging it to be sufficient for that occasion." In 1693, "the corporation having been informed that the custom taken up in the college for the commencing to have plum cake is dishonorable to the college, not grateful to wise men and chargeable to the parents of the commencing, do therefore put an end to that custom." In 1727 a private commencement was determined upon and was observed for several years, but was not a success. The laws of 1734 provided that "no commencing shall have at his chambers any plum cake, plain cake or pies or hot meats of any kind except what is left of the dinner in the hall or any brandy, rum or distilled liquors or composition made with any of them."

Modern Necessities.

"One of the reasons for the cost of living," observes a wise clubman, "lies in the fact that people buy wholly unnecessary things. I had a conversation with the proprietor of a novelty shop in Fifth avenue a few days ago. A shiny object had attracted my attention, and I inquired about its use.

"Those," said the proprietor, "are gilded pincers to pick up letters one has placed on the letter scales."

"And that ivory stick, carved and forked at the end?"

"People use that to fish out things they have dropped into carvings."

"That square of Morocco about the size of a nut, what is that for?"

"That's a tampon—used to press down stamps after sticking them on envelopes."

"That ornamental box with a whole battery of little brushes?"

"Those are to clean other brushes; brushes to clean hairbrushes, brushes to clean toothbrushes."—New York Post.

SICK CHILDREN LOVE CASCARETS FOR THE BOWELS

Get a 10-cent box now.

Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well, and need a gentle cleansing of the bowels—but don't try to force a nauseating dose of oil into the little one's already sick stomach—it is cruel, needless and old-fashioned.

Any child will gladly take Cascarets Candy Cathartic which act gently—never gripe or produce the slightest uneasiness—though cleanse the little one's system, sweeten the stomach, and put the liver and bowels in a pure, healthy condition.

Full directions for children and grown-ups in each package.

Mothers can rest easy after giving this gentle, thorough laxative which costs only 10 cents a box at any drug store.

Early Use of Copper.

Copper is not a metal of modern utilization. It was mined and manufactured in prehistoric times, when it was utilized as a material for the construction of utensils for domestic use and also for implements of war. It has been generally supposed that the use of copper preceded that of iron, but at present it is believed by students of the subject that iron was first subjected to human use. In many regions, however, where native copper appeared at the surface it is probable that it was worked before iron because of the comparative ease and simplicity of obtaining it, which involved no metallurgy. The Indians of the western United States were acquainted with copper. Many objects fashioned from it have been found in mounds. Indications of early working of the Lake Superior copper mines exist, while in Tennessee there are remains of prehistoric smelting plants. Copper was first mined in this country in Connecticut in 1703.—Engineering Magazine.

Gadsby Had Nothing to Say.

"Henry," said Mrs. Gadsby, "a poor man came to the house this morning and asked me if I had any old clothes to give away, so I—"

You went and gave away one of the best suits of clothes I had and probably a pair of shoes I could have worn for twelve months longer and a hat and there's no telling what else. All at a time when I can't afford to buy anything new."

"Don't be so hasty," said Mrs. Gadsby. "If you had listened to me instead of interrupting you would have saved your breath and kept your temper. The man wanted something for his wife, who is a cripple, he said, and I gave him one of my old skirts that I used to cook in."—Birmingham Age-Herald.

Working Up a Sable Pelt.

"A fur dealer told me I wouldn't know a sable if I saw one," said a man who had been inquiring about pelts. "I thought, of course, they'd be soft, fluffy little fellows, but he says they have a hide as flat as a rat's. He says that when the skins are taken from the animals they are so hard that they are placed in a tub and are treaded on them to soften them. The tub is tilted so that at each step the man takes the skins slide down the slope and are kept moving. The man treads for hours and hours before any pelt appears. When it begins to rise the skins are oiled and the treading begins again. This is continued until the skins are as supple as catpaws and the pile has become so high that the fur has that soft depth and beautiful rich gloss for which it is prized."

Human Levers.

"All man made machinery runs on wheels. Yet there is not a single wheel in the human body. And the human body is the most perfect piece of mechanism in the world. It seems strange that man has developed mechanics along all lines but those with which his own body works. Practically every motion we make is performed by the direct operation of levers, and living creatures are the only machines so built. Almost all these human levers are of one kind, that commonly called the third. There are three kinds of levers: (1) that in which the fulcrum is between the power and the weight, or resistance, as in a pair of scissors; (2) that in which the weight or resistance is between the fulcrum and the power, as in an oar; (3) that in which the power is between the fulcrum and the weight, as in a pair of grass clippers. It is true that each of these forms of levers is used in mechanics, but no great machine has ever been built on the purely lever principle.—New York World.

Japan's Hokey Pokey Men.

Japanese children are amused by the rice jelly molders, or amezakuya, as American children are by the hokey pokey ice cream itinerant. Beating a drum, he goes up and down city streets with a small box on his bamboo pole or on a small cart, paper flags of various colors decorating his outfit. Ame is a kind of jelly made from rice, of which all Japanese children are extremely fond. The ame seller stops when the children gather round him, and he amuses them by molding all kinds of shapes, from a fish to a bird, which he sticks on a piece of bamboo and sells to his audience for a mere nothing. He can blow up the ame like a glass blower, making a globe "or a large sized" animal or fish, as he wills, and each child chooses the object he most fancies. Each object created is painted with a vegetable coloring in lifelike colors, and with each purchase he gives away a paper flag. He is a picturesque feature at all temple festivals.—Bulletin of Japan Society.

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1911 I was attacked by Rheumatism and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried every remedy, from cod liver oil to the most powerful medicine, but I found a remedy that cured me completely, and it has never returned. I want every sufferer from any form of Rheumatism to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long looked-for remedy of curing your Rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Let's challenge? Why enter any longer when positive relief is thus offered you free? Don't delay. Write today.

THE TALE OF THE TOOTH BRUSH.

Many of us are careful of our hair brushes and clothes brushes but so few remember the humble tooth brush. To keep the teeth perfectly white and perfect the tooth brush should receive care as well.

A good tooth brush if used conscientiously should not be in use more than two weeks at a time, and it is better to keep two in use so that each may have a period of drying out and airing. It never pays to buy too cheap a brush if the price is at the expense of the bristles. In the first place, a poor set of bristles will not do their work well, and in the second place, loosely fastened bristles are very dangerous if they slip down the throat, where they may catch and decay or penetrate the walls of the digestive tract.

Always wash out the brush thoroughly after each application and, by the way, a new brush should be soaked in a weak solution of bicarbonate of soda for two hours both to disinfect it from shop handling

and to set the bristles so that they will not fall out so readily.

The teeth should be brushed at night, after each meal and upon rising. It is particularly important to clean them the last thing before retiring, so that food particles will not remain in the teeth crevices to decay over night when the mouth saliva is not active enough to prevent it.

During a long illness the teeth should be carefully cleaned when they cannot receive attention from a dentist. If this were done fewer teeth troubles would be laid to the ailment, which is not much more to blame than neglect of the mouth.

See that the mouth is constantly washed out with a little bicarbonate of soda, which can be prepared by dissolving a teaspoonful of the bicarbonate (ordinary baking soda in a pint of water and bottling it for use. Most authorities consider this better than too frequent a use of the hydrogen peroxide solutions, which are not always good for the teeth.

EVERYDAY ETIQUETTE

"When invited to a church wedding shall my husband and I call upon the bride and bridegroom if we have never met them and know slightly the parents of the bride only?" asked Mrs. Amicus.

"If no 'at home' cards were inclosed you do not have to make a call, but if the bride lives in your neighborhood it would be courteous to call," replied her society friend.

YOUR BOYS AND GIRLS

Encourage a boy to have pride in his clothes. He will be none the worse for being "a bit of a dandy," provided he is not allowed to be extravagant. A little legitimate pride in his tie, the cut of his clothes, and the shape of his collar, will produce a dignified man, disliking slovenly ways, with a knowledge of what to wear and how to wear it.

It is believed that everything one hears is imprinted upon our brain. If this is the case, how important it is to plant the brain of a little child with good sensible ideas, that will crop up in due course bear good fruit.

HEAL YOUR SKIN WITH RESINOL

It Stops Itching Instantly, and Clears Away Unsightly Eruptions.

If your skin itches and burns with eczema, or any such tormenting, unsightly skin disease, simply wash the sore places with Resinol Soap and hot water, dry, and apply a little Resinol Ointment. The itching stops INSTANTLY, you no longer have to dig and scratch, sleep becomes possible, and healing begins at once. That is because the soothing, antiseptic Resinol medication strikes right into the surface, arrests the action of the disease, and almost always restores the tortured, inflamed skin to perfect health—quickly, easily and at little cost.

Prescribed by doctors for twenty years, and sold by every druggist.

A GOOD WAY TO SHAMPOO—Shampoo with Resinol Soap, rubbing the lather thoroughly into the scalp, so as to work in the soothing, healing Resinol medication. This almost always stops dandruff and scalp itching, and keeps the hair live, thick and lustrous.

Where Ships Have Been Sunk In and Out of "War Zone" Since February 17

This map shows the operations of the German mines and submarines since the decree of the "war zone" about the British Isles went into effect at midnight, Feb. 18. In all there have been sunk twelve vessels, some by submarines and some by mines. The two American vessels to suffer, the Evelyn and the Carib, went down off German harbors as the result of contact with mines, so no very serious international questions were raised. But some other neutral ships have been sunk by submarines. The Germans have given no assurance that they will not sink American vessels flying the American flag without close investigation, nevertheless, the fact remains that for the first nine days of the operations in the war zone by their submarines they had sunk no ship flying the American flag, though they had not so highly regarded the flags of weaker neutral nations.

Notes and Comments.
Newark teachers made 118 visits to the homes of children during the month and 588 such visits have been made during the year. Many teachers are making it a point to visit the homes of such children as need encouragement and in order to become better acquainted with the home conditions of their pupils. This is valuable work and all teachers should do more or less of it.

There were 1232 visits made to the schools during the month, 687 of which were made by parents. This is a fine showing and it is hoped that every parent who has a child in the schools may find it possible to visit the school before the close of the year. This is the best way for parents to know the real work that the schools are trying to do.

A glance at the above statistics will show that the attendance and punctuality of children are very good. The attendance being 94 per cent and the number of tardy marks being 70 for the entire schools, with four buildings reporting no tardiness whatever. Last month the Woodside school had but one tardy mark and by mistake it was given credit for 4. We are glad to make this correction.

ARRANGE CONTESTS FOR HIGH SCHOOLS OF LICKING COUNTY

The Licking County Schoolmasters Club met in Newark Saturday afternoon to arrange for the annual inter-scholastic contests between the high schools of the county. The former rules will govern the various contests.

On the afternoon of March 19 in the high school auditorium the children of the public schools under the direction of Mrs. Annis Lawhead Mitchell will give an entertainment for the benefit of the public library. The proceeds will be used to purchase books for the children's room at the library. On the evenings of March 25 and 26 the annual high school minstrel show under the direction of Prof. Klopp will be given for the benefit of the high school athletic association. A school children's matinee will be given at 3:30 on the afternoon of the 25th.

On the afternoon of Feb. 22 the teachers and pupils of the Riverside school gave an entertainment which was attended by about 400 patrons of that district. Almost \$40 was cleared which will be used to purchase a Victrola. The people of that neighborhood show a fine spirit toward their school.

It ought to be of interest to the citizens of Newark to know that in February, 1912, there were 3617 pupils enrolled in the public schools of this city. Last month there were 4175 pupils enrolled, making an increase of 558 in three years. The high school enrollment in February, 1912, was 505. Last month the enrollment in high school was 635—making an increase of 130 in three years. It costs on the average about \$35 per year to educate a pupil in the public schools of this city, therefore, the appropriation for the public schools should have increased about \$20,000 over that of three years ago to cover cost of instruction alone. This information is given in order that the public may know that the board of education in a growing city must have larger appropriations from time to time in order to meet the needs of the schools.

CONVULSIONS AND BRIGHT'S DISEASE

An established recovery in chronic Bright's Disease, with albumen, dropsy, retinitis and convulsions should interest physicians.

G. W. Kirkpatrick of the Globe Milling company, 148 Laguna St., San Francisco, was in bed believed to be at the point of death for nearly nine weeks. Dr. Proctor told his wife he was liable to die at any moment. There was dropsy and the eye-symptom and he had reached the convulsion stage. In making one of the tests, after boiling Dr. Proctor dropped the tube. On picking it up he found the sample had not run out. It had solidified, showing almost solid albumen. The doctor administered Fulton's Renal Compound. This was in 1905. Patient's appearance at our office well and hearty in 1913 is answer as to the results and their permanence.

The ability of Fulton's Renal Compound to reduce albumen in many cases of Bright's Disease is not a matter of opinion but a FACT IN PHYSICS, and we will mail formula for albumen test that will show the percentage of albumen from week to week. As the albumen declines improvement commonly follows, recoveries having been reported in thousands of cases. Formula and literature mailed on request. John J. Fulton Co., San Francisco. Frank D. Hall, druggist, is local agent. Ask for pamphlet.

of all musical comedy leads, possessing a petite and handsome figure and a voice only second to Tetrazzini's. All the songs are part and parcel of the show, combining tuneful jingles, ensembles and chorus numbers, and have been written especially for this production.

There are forty people in the cast, including a dashing chorus of twenty pretty girls who know how to sing and dance and look bewitching; Morris and Campbell in the big screen sketch "Nearly a Soldier"; Eddie Van, the character entertainer; Baker and O'Neil in "The Census Takers"; Savoy, the jumping juggler; Ada Lum, the girl with the smile, and others constitute the olio. Taken in all, a treat of unusual proportion may be reasonably expected—a veritable feast at once for the eye and ear. Matinee 2:15, 15 and 25c. Evening 8:15, 25c to \$1.00. Seats now selling.

Kill the Dandruff Germ Grow Nice, Thick Hair

Many men and women troubled with itching dandruff—the germ that brings falling hair or baldness—get the mistaken idea that a hair wash or tonic will give them a heavy, luscious growth of hair. Its all nonsense. The dandruff germ has his home inside your hair roots and he won't be killed 'till you go under the scalp after him. Not only should the scalp be kept clean and healthy to promote soft, fluffy hair but you must feed the little follicles or pores in which the hair is seated, with nourishment that destroys every chance of life for the dandruff germ. Lots of hair lotions merely dissolve the surface scales of dandruff and the sticky glycerine glues the dissolved pieces tightly to the hair strands, fooling folks into thinking the dandruff's all gone—"till it begins falling over one's clothes a day or so later."

Even the first day's use of "wild-root" will prove its value for the dandruff falls from the head in veritable showers on combing. But quickly after the scales are dropped the scalp again may produce a thick, luxuriant growth. Any good, first-class druggist sells "wild-root," which is inexpensive, contains only pure vegetable oils and no acids or alkalis. A bottle will last considerable time and the chemists who make it guarantee perfect satisfaction or money back.

GASO-ELECTRIC BLAIR 'BUS IS SEEN HERE

BIG CAR RUNS WITHOUT THE
JAB AND JERK OF SHIFT-
ING GEARS

Westinghouse Company Installs
Electric Equipment and Experts
Say Car Is a Success.

A Blair gaso-electric bus the first of its kind and the only successful gaso-electric automobile in the world was seen upon the streets here today.

The big car is large enough to seat 48 passengers, runs smoothly and beautifully under perfect control.

To start a heavy passenger-carrying motor-driven vehicle in motion without the abrupt jerk that accompanies the throwing in of the clutch has been a problem which has remained unsolved in the regular gasoline driven vehicle. The smooth, even acceleration of speed which is possible by electrical control such as is used on the electric coupe and the street car is absolutely necessary to the comfort of the passengers.

The grinding and singing of the gears in both the transmission and the differential is annoying to both passengers and the people along the route. This is especially so upon getting under way and is also augmented by the addition of the noise of gear shifting.

The purely electrically driven vehicle is out of the question for continuous passenger service because of excessive weight—high initial cost—high upkeep—the loss of so much time in charging the storage battery—and its inability to make long hauls.

The gaso-electric drive as developed by The Westinghouse Company on the Blair sub-frame consists of a gasoline motor directly connected to an electric generator on an electric driving motor wired to the generator and coupled direct to the worm shaft in the rear axle. The latter is made possible by the peculiar construction of the sub-frame.

This chain of mechanism permits smooth electrical control of speed—is self contained and always ready—and eliminates the noisy shifting of gears—the abruptness of the clutch in starting—the transmission and its annoying grinding of gears. In short, it supplies all the fundamental requisites for the ideal "Motor Bus."

When asked for an expression of opinion the chief engineer of the Westinghouse Company in Philadelphia sent the following telegram:

"From our experience on the Philadelphia job I am convinced that your company's chassis provides an ideal sub-frame construction which makes possible a unit power plant for combination gas and electric drive and produces a bus or truck far superior in operation than any chassis which the market has to offer."

LONGSHOREMEN ON STRIKE AT VANCOUVER.

(Associated Press Telegram.)
Vancouver, B. C., Mar. 2.—Six hundred members of the Vancouver branch of the International Longshoremen's Union, quit work last night when they were asked to accept a reduction of 10 cents in their wage schedule. The "slingers" were cut from 45 cents an hour to 35 cents and the "trucks" from 40 to 30.

The walkout came at a critical time, three ocean liners having just arrived. The employers said they expected to fill the ranks of the strikers today from the city's unemployed.

WEALTHY OIL MAN FOUND DEAD IN ROOM.

Uncle Walt

THE TRUE HARBINGER.

Most harbingers of Spring are fakes; the man depending on them wakes to find they fooled him and he sees he has the grip, or some disease.

He sees some harbingers on deck, and says: "The Winter's gone, by heck; a soft wind from the southland blows, and I shall change my underclothes, and put my overcoat in soak, and dance and slug and laugh and joke. And then a blizzard comes along, and shows him where he got in wrong. Oh, don't assume that Spring is here, when Jim-crow harbingers appear; but wait until the chucking hen is fussing round the yard again, intent on hatching sundry chicks into this world of politics. And don't be fooled by pullets young, which chuck around eye Springs is sprung; they're too impatient in the cause; the fire of youth is in their craws. But wait serenely till you've heard the chucking of the wise old bird, which has outlived the zeal of youth, and long since cut her wisdom tooth. When she gets busy, when she begs for nest of straw and fourteen eggs, then, gentle reader, you may shed your underwear of flannel red; for when the old hen plays her game, we realize that Spring has come.

Rheumatism In Joints

Pain Disappears and Swelling Vanishes in a Few Days.

That is what happens if you use Rheuma, the wonderful remedy that T. J. Evans and all druggists sell on the "money back if not cured" plan. There is a vast amount of rheumatism in this vicinity, and if you know any sufferer, call his attention to this generous offer.

Rheuma is a quick-acting prescription. You will know your rheumatism is leaving 24 hours after you take the first dose. It dissolves the uric acid and drives it from its lodging place.

Mr. Alice A. Brown, Ithaca, N. Y., writes: "For seven years I suffered greatly with rheumatism in my hip; at night I was scarcely able to sleep. One bottle of Rheuma cured me."

That sounds miraculous, but Rheuma does miraculous things. Fifty cents a bottle.

TANGLED

MASS OF BUSINESS CONFRONTS CONGRESS TO BE DONE BY THURSDAY NOON.

Rural Credits and Administration's Ship Purchase Bill are Among Knotty Problems.

(ASSOCIATED PRESS TELEGRAM)
 Washington, March 2.—Two knotty problems, rural credits legislation and the administration ship purchase bill, today confronted congress in the tangled rush of business to be disposed of before adjournment at noon Thursday. The rural credit bill, attached to the agricultural appropriation bill, now in conference, and the ship bill before the house, a report from a conference committee, both threatened to complicate the steady grind of appropriation bills which must be continued to the last minute of the session.

While the senate continued consideration of the disputed Indian appropriation bill, house leaders were ready to follow the administration wishes and force the ship bill through the house. The measure was temporarily abandoned yesterday because of a Republican filibuster, and the leaders were inclined to drop it entirely. President Wilson, however, urged action, and another effort will be made to put it through, although if it encounters a determined Republican filibuster, it may complicate the crowded legislative situation to a point that would endanger the necessary supply bills.

The rural credits fight, which kept the house in session until early today, was continued in the conference committee of the two houses. With the Indian bill delayed in the senate, it was expected that late sessions would be necessary both tonight and tomorrow night to complete the work. In the house the ship bill threatened to force a practically continuous session until final adjournment.

DOCTORS USING AMOLOX WITH GREAT SUCCESS

This remarkable letter, coming from a prominent physician engaged in active practice for over 25 years, proves the merit of this wonderful new Remedy.

I have used Amolox in four different cases with excellent results. All showed marked improvement from the start. Two apparently are cured, the skin being free from scales and redness, and perfectly normal.

I consider Amolox a remedy of rare merit. I know of nothing in the modern text-books that equals it in therapeutic value.

Pimples on the face, Blackheads, Acne and all minor skin troubles yield quickly to the use of the Amolox Ointment. Sufferers of Eczema, Psoriasis, Tetter, Salt Rheum, and bad chronic cases of skin diseases lasting for years, should use both the Ointment and Solution to effect a cure. Trial size, 50c. Guaranteed and recommended by F. J. Evans.

ROLLER SKATING IS ANNOYING TO SOME TAX PAYERS

Mayor Bigbee received a communication Tuesday announcing that residents of Tuscarawas street and Dewey avenue had declared roller skating to be a nuisance and asked the aid of the mayor and his department in forcing them some relief.

The mayor recalled similar complaints that came from Maple avenue last spring and also called attention to the practice of youngsters who disregarded the rights of others by monopolizing the sidewalks not only in the resident districts but the downtown streets also.

While discussing the roller skating problem, Mayor Bigbee also referred to the traffic ordinance which he returned to council Monday night vetoed. He said that the provision in that bill prohibiting the use of any sidewalk by motorcycle riders, was a good one and should be incorporated in an ordinance. He said that other provisions of the vetoed ordinance were practically covered in previous laws passed by council.

EDUCATION MAY BE COMPULSORY; RUSSIAN REFORM

(ASSOCIATED PRESS TELEGRAM)
 New York, March 2.—An officer of the emperor's household, in a letter to a friend in this city, writes that the second wide-sweeping reform to be effected in Russia will be compulsory education. The letter states that M. Kasov, minister of instruction and religion, is formulating a decree to be issued on the termination of the present hostilities and to be in full effect throughout the empire after a period of five years. The letter is being discussed by the ministers of the cabinet. It is generally believed that the local government bodies will welcome the new move in education and give it financial support.

SEATTLE CHINESE WILL NOT BOYCOTT JAPANESE GOODS

(ASSOCIATED PRESS TELEGRAM)
 Seattle, Wash., March 2.—Decision not to declare an organized boycott on Japanese goods was reached last night at a meeting here of more than three hundred Chinese, who debated the question for four hours behind closed doors. Secrecy was maintained concerning the deliberations but several that attended the meeting said that no action would be taken for the present.

It was learned that the younger Chinese were ardent advocates of the boycott promulgated by the Chinese Six companies in San Francisco. They were said to have made heated speeches urging the boycott as a patriotic duty because of Japan's demands on China. The elder Chinese, whose business interests here are closely allied with those of the Japanese, opposed participation in the movement and when the issue was put up to a vote, they won.

ROOTS OUT CORNS BY PENETRATION

Dr. Hunt Finds the Quick, Clean, Painless, Effective Way. ONLY 10c.

Cutting a corn never cured it. Caustic liquids only invite blood poisoning, and stimulate further corn growth. Corn pads are bulky and squeeze the toes. Salves are greasy. But the one way that *Dr. Hunt* cures corns of all kinds and sizes is the *penetration* way, discovered by Dr. Hunt, of Sidney, Ohio, a medical man who has spent a lifetime in the development of this new principle of curing corns by penetration.

Dr. Hunt's New Corn Cure comes in the form of clean, handy plaster. Six plasters in a box. Trim plaster size of corn and apply. Instantly the pain is eased. All you feel is the soothing effect. The plaster does not bulk up like clumsy pads.

SERIOUS

CONDITIONS STILL EXIST IN SINGAPORE AS RESULT OF FEBRUARY MEETING.

Executions Taking Place Daily in Public Square—German Prisoners Among Rebels.

(ASSOCIATED PRESS TELEGRAM)
 Manila, March 2.—Conditions still are serious at Singapore, as the result of the mutiny among the Indian troops early in February, if reports brought here yesterday by passengers on the steamer St. Egbert, are well founded. According to these stories, executions are taking place every day in the public squares of Singapore. Hundreds of mutineers are said to be still at large, and it is considered possible an entire regiment was involved in the revolt.

The latest reports are to the effect that 15 Germans from the detention camp joined the mutineers. Ten of them have been recaptured, it is said, and sentenced to long terms of imprisonment. Some quarters of Singapore still are considered unsafe and residents have been ordered to concentrate in the central sections of the city. The French sailors who were landed from warships to help quell the mutiny, have returned to their vessels but the Japanese blue jackets, who came ashore at the same time, are still on duty.

WOMAN RECEIVER FOR LITIGATED PROPERTY.

(ASSOCIATED PRESS TELEGRAM)
 New York, Mar. 2.—The appointment of Mrs. Charles H. Secretary of War Refuses to Discuss
Movement at Present—Plans
Being Formulated.

(Associated Press Telegram)
Washington, Mar. 2.—While awaiting reply from Major General Wood, in command of the eastern department to his inquiry concerning the launching of a movement in New York for the creation of a three hundred thousand reserve force to be known as the American Legion, Secretary Garrison today continued to decline to discuss the matter or to indicate what his official attitude would be. At Mr. Garrison's direction, Brigadier General Hugh L. Scott, chief of staff of the army, has sent a clipping of a published report to General Wood with a request that General Wood forward all the information obtainable on the subject.

FURTHER DETAILS OF
PLAN PUBLISHED
BY LEGION SECRETARY.

(Associated Press Telegram)
New York, Mar. 2.—Headquarters of the American Legion will be opened in this city tomorrow, and according to statements issued by organizers of the movement, the enrollment of members will be begun at once. Already 500 men have signed their intention to join the organization and within a year it is expected that half a million men will be wearing the red, white and blue button of the new national defense movement.

Further details of the plans of the American Legion were published today by Dr. J. E. Hausmann, its secretary. It is to be controlled by an executive committee of four men, two of whom probably will be ex-secretaries of the navy. This committee will be announced as soon as the fourth acceptance is received. In co-operation will be an advisory board of between forty and fifty men, chosen from all parts of the country. Their selection will probably be made in the first instance by the executive committee, who also will have charge of assigning members to their various ranks.

SANITARIUM

(Continued from Page 1.)
management of the Newark Sanitarium was submitted:

To the Honorable City Council of the City of Newark, Ohio.

"Gentlemen:—For the past six years we have been engaged in operating what is known as The Newark Sanitarium, located at No. 159 West Main street, this city, containing about 25 rooms and with a full corps of trained nurses and doing a general hospital business about the same as the Newark City Hospital.

"During that time we have done a large amount of charity work, furnishing, for patients without means of any kind, rooms, board, medicine, nurses, clothing, etc., as follows:
1909 to the amount of.....\$ 750.00
1910 to the amount of.....\$ 75.00
1911 to the amount of.....\$ 1,185.00
1912 to the amount of.....\$ 1,250.00
1913 to the amount of.....\$ 1,500.00
1914 to the amount of.....\$ 1,175.00

\$6,825.00
For which we have never received one cent of compensation, nor have we ever received any assistance of any kind from the city or any of the societies of the city or any of the citizens of Newark, either in the way of money, furnishings or work, while the City Hospital engaged in exactly the same line of business as ourselves, has received large donations from the citizens to the extent of Sixty Thousand Dollars or more in money, furniture, and furnishings of all kinds, and in addition thereto has received the sum of about Twenty-four Hundred Dollars per year from the city, raised by tax levied upon the taxable property of the city, a part of which we have been obliged to contribute in the way of taxes.

"Inasmuch as we have never received any donations or assistance of any kind and are doing precisely the same work as the City Hospital and inasmuch as we have done nearly Seven Thousand Dollars of charity work for the citizens of this community, and expect to do charity work to about the same amount each year, we think it is only fair that the money raised by

"Me for 'GETS-IT' When I Have Corns"

Simple As Slicing It: Never Fails

It does your heart good to see how easily and quickly any corn can be cut when you put "GETS-IT" on! And then when you're alone for years try-

ing everything, when you've sat up nights wringing up your toes in bandages, smothering on salves that rub off or swell up the corn, pasting on cotton plaster that make corns pop-eyed, slaughtering your toes with razors, jabbing them with knives and prunning to the quick with scissors—and then you put on "GETS-IT" and see your corns fall right off—why, it just looks like a miracle. Just try it. "GETS-IT" never fails. No pain, no trouble. Use it for any corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, or a bottle or sent direct by L. Lawrence & Co., Chicago.

taxation for such purposes should be equally divided between the City Hospital and the Sanitarium. If such a division is made, we are willing to make a quarterly report to the City Council showing what charity work has been done during the preceding quarter and the extent and amount thereof.

"Respectfully submitted,
"A. J. KENNEDY,
"J. D. MONTGOMERY.
"We, the undersigned physicians and surgeons of the said City of Newark, Ohio, having read the foregoing application and being more or less familiar with the charity work done in the Newark Sanitarium by Messrs. Kennedy and Montgomery, during the past few years, believe that as a matter of justice and fairness, the foregoing application should be granted by your honorable body.

(Signed) "J. G. Shier, C. H. Stimson, H. B. Anderson, J. P. H. Stedem, G. W. Sapp, D. H. Miller, W. E. Boyer, D. M. Smith, H. D. Rank, W. L. Jackson, C. E. Hatch, W. E. Shrontz, T. L. Baxter, H. P. Martin, F. E. Corkwell, Carl E. Evans, Carl J. Dillon, J. W. Barker, Philip H. Cosner, E. Florence, Star Smith, Gary E. Leggs, J. W. Hornby, D. J. Price, W. B. Nye, James P. Latimer, H. H. Baker, S. D. McClure, O. P. Sook, Harry E. Hunt, W. E. Wylarch, J. M. Mitchell, H. J. Davis."

Councilman Legge, moved that a special committee of three be appointed to consider the matter. "I think this matter should receive the attention of council," said Dr. Legge in asking for the committee.

The heirs of Mrs. Mayer in North Fourth street protested against an assessment for a sewer in Fourth street. The matter was referred to the law committee. The same committee got J. A. Chilcote's protest against an order to construct a sidewalk at Central avenue and Moul street.

Councilman Payne submitted an ordinance to transfer \$1000 from the general fund to the public health fund to take care of current expenses pending the receipt of the city's portion of the taxes. The ordinance was declared an emergency measure and was passed on suspension of rules.

An ordinance accepting the plat of the Jefferson Place addition was of its second reading and rules were suspended and the measure was passed.

Councilman Seward's ordinance to issue bonds for \$30,000 was read the second time.

Councilman Payne offered a resolution directing the city engineer to prepare plans for the Buena Vista street paving. It was adopted.

Councilman Rexroth offered a resolution declaring it necessary to pave Kibler avenue from Elizabeth to Charles street. The measure was referred to the street committee.

A resolution by Mr. Baker authorizing the service director to raise the grade of the sidewalk on German street from the South Fork of the Licking river to Prospect street by making it conform to the street grade. Mr. Christian stated that the department of public service had already planned to do this work as soon as the weather would permit.

Councilman Seward told council that Mr. Kelley of Granville street had asked for a grade for a sidewalk in front of his property. The engineer, Mr. Kelley wants the street line of Sixteenth street which will require considerable time and work to finish. He stated that this would be done as soon as possible.

Council adjourned until Wednesday evening at 7:30.

WOMAN'S BEAUTY NO SECRET.

It all lies in the care she bestows upon herself and in keeping at bay those dread ills peculiar to her sex. The flashing eye, the elastic step and the clear complexion never accompany organic troubles. The distressed expression, lassitude, headaches and mental depression are only the tell-tale symptoms. Women so troubled should take Lydia E. Pinkham's Vegetable Compound, that simple remedy made from roots and herbs, and restore their health to a normal condition.

GERMAN RAILROAD TRAFFIC CONTINUES AND IS INCREASING.

Berlin, Via London, Mar. 2.—The minister of railways has informed the budget committee of the Prussian Diet that seventy per cent of all railways operated in times of peace have been in use since November 1. Passenger and freight traffic, he said, increased steadily up to March 1. The former is now more than eighty per cent of normal and the latter over 90 per cent.
